### **CMCI Appoints New BOG Members**

Six CCMs have been appointed to serve on the Construction Management Certification Institute's (CMCI) Board of Governors. Three new members have been inducted as part of an overall expansion due to the increase in volume of applicants, and three replace members who have completed their terms.

The Board of Governors is responsible for setting CMCI policies and procedures, reviewing CCM applications, approving or denying candidacy for applicants, and serving as strong advocates of the CCM credential.

The new Governors are:

- **Claude A. Berry, III**, CCM, President, Wehr Constructors, Inc.
- **Thomas C. Haid**, CCM, PE, Vice President, Parsons
- **Mehdi Heydari**, CCM, PE, Vice President and Regional Director of Project Operations in Southern California, Vanir Construction Management
- **Larry J. Smith**, CCM, PE, F.ASCE, F.SAME, Chief of Construction Branch for the U.S. Army Corps of Engineers, Sacramento District
- **Brian Stover**, CCM, PE, Senior Vice President, Urban Engineers
- **Kenneth Vogel**, CCM, PE, Manager of the Construction Department, Metropolitan Washington Airports Authority (MWAA)

In order to be eligible for the CCM designation, applicants must have a minimum of 48 months "Responsible-In-Charge" experience on one or many projects. Specific types of experience are broken down by the Qualification Matrix, and each requirement within the application must be met before the exam is proctored and the designation is awarded. Accepted combinations of education and experience are described in detail on the CMCI website. There are currently 1098 CCMs.

The CM Certification Program is administered by the Construction Manager Certification Institute (CMCI), an independent administrative body of the Construction Management Association of America (CMAA). The Institute is governed by a Board of Governors and is comprised of CM professionals who are responsible for policies and

procedures affecting criteria for professional certification and the determination of individual certification status of candidates enrolled in the CM Certification Program.  
CMCI's website is at [www.cmcertification.org](http://www.cmcertification.org).
