### **Promote Stimulus-Driven RFPs Free at New CMAA Site**

Billions of stimulus dollars will soon be flowing into states and localities across the country, to support a vast array of construction projects. Agencies that need additional Construction and Program Management support to handle this work can now take advantage of a free RFP posting service from the Construction Management Association of America (CMAA).

Posting an RFP in CMAA's searchable library puts it before more than 5,500 CM and PM professionals, including corporations of all sizes as well as sole proprietors and individual CM practitioners. CMAA members can search the RFP database using a variety of filters to identify RFPs to which they can suitably respond.

The service is free to posters and can be accessed at [http://cmaanet.org/add\\_rfp](http://cmaanet.org/add_rfp).

"Many departments of transportation, school boards, transit agencies, and other public sector construction owners are significantly under-staffed and challenged to manage large volumes of new construction," notes CMAA President Bruce D'Agostino. "CMAA members are often retained by these clients to augment in-house staff and provide a substantial additional management resource. Our new RFP posting opportunity will give agencies a direct means of soliciting information from a large number of new potential contractors."

CMAA is North America's only organization dedicated exclusively to the interests of the professional Construction and Program management industry. On behalf of its 25 regional chapters and more than 5,400 public and private firms and individuals throughout the nation, CMAA promotes the Construction Management industry and provides professional resources, advocacy, professional development, certification, and business opportunities to its members. CMAA's national headquarters is located in McLean, Va. The Association's website is [www.cmaanet.org](http://www.cmaanet.org).
