

CANDIDATE FOR VICE PRESIDENT
Steven Anske, CCM, PMP
MBP Construction Engineering, Inc.
Raleigh, North Carolina

Biography

Steven Anske has over twenty-six years of experience in the construction industry having worked as a mechanical designer, project manager, and construction manager on a wide variety of complex projects. Specifically, Steve has over 12 years experience as a project manager for the Department of Defense (DOD) responsible for Major and Minor Military Construction (MILCON) projects ranging from \$200,000 to over \$50 million. Since leaving the DOD in 2000, he has provided CM Agency services on numerous hospitals and educational facilities for clients such as the Corps of Engineers, US Customs, Johns Hopkins Real Estate, Maryland Aviation Administration and the National Security Agency, and most recently Wake Technical Community College.

Prior to beginning his tenure in MBP's Raleigh office, Steve completed a Tier 3 Data Center for the Johns Hopkins Institutions, which was subsequently awarded the CMAA Small Projects Award, National Capitol Chapter. He holds certifications as both a CCM and Project Manager Professional (PMP) through PMI. Also, he is a member of both Safety and Quality Committees at the National CMAA level.

Candidacy Statement

As Chapter Vice President, my main goal would be to revitalize and recharge the North Carolina CMAA Chapter. Prior to my relocation to the Raleigh area, I was an active member of the Washington, DC Chapter and observed first-hand the positive impact CMAA brings to the construction industry. As such, I believe member involvement in the local CMAA Chapter is essential to its success here in North Carolina. I look forward to staying active in CMAA's North Carolina Chapter educating current and new members of its benefits.
