Miller Joins CMAA as Vice President, Certification

Jan paul Miller, an experienced specialist in industrial certification and education, has joined the Construction Management Association of America as Vice President, Certification.

Miller will supervise the rapidly growing Certified Construction Manager (CCM) program, which has certified nearly 1,000 professionals.

He comes to CMAA from the Construction Specifications Institute (CSI), where, as Certification Manager, he was responsible for administering certificate and certification programs for specifiers, architects, engineers, contractors building materials suppliers, and others in the construction industry. He has been managing CSI's transition to a national computer-based testing program.

Previously, he had worked at The National Customs Brokers and Forwarders Association of America Educational Institute, where he served as its founding director. He has taught and consulted at several institutions of higher education, and been a writer and editor for a number of newsletters and scholarly publications.

Miller is a graduate of the University of Maryland /Baltimore County and holds two masters degrees, a Master of Arts in English and a Master of Education in Reading Diagnosis and Instruction. He has completed doctoral work in administration at George Mason University in Fairfax, VA.

"CCM is not only growing in participation but evolving in the programs needs and resources," notes CMAA President Bruce D'Agostino. "In Jan paul, we have added a remarkably qualified and experienced person who can shepherd this vital program to even greater accomplishments in the years ahead."

CMAA is North America's only organization dedicated exclusively to the interests of the professional construction and program management industry. On behalf of its twenty-five regional chapters and more than 4,500 public and private firms and individuals throughout the Nation, CMAA promotes the construction management industry and provides professional resources, advocacy, professional development, certification, and business opportunities to its members. CMAA's national headquarters is located in McLean, Virginia and the Association's website is www.cmaanet.org.

Information about the CCM program is available from the Construction Manager Certification Institute at www.cmci.org.

Note to editors: Mr. Miller uses a lower case p in paul.
