

CONSTRUCTION MANAGER CERTIFICATION INSTITUTE

Renewal Handbook

CCM RENEWAL HANDBOOK

Purpose

Recertification is an integral part of the Certified Construction Manager (CCM) program. Continuing education offers the practicing CM professional a vehicle to career development and reinforces the intent and scope of practice within the construction industry. Certification is an ongoing commitment to professional development that begins with gaining CM experience, being successful in providing Responsible-in-Charge (RIC) services, submission of CCM application and then passing the CCM certification exam. All CCMs should be actively involved in, and committed to the CM profession and professional development. The Construction Manager Certification Institute (CMCI) Board of Governors has designed the renewal process to reflect that commitment as well as in meeting the ISO/IEC/17024 accreditation requirements as administered in the United States by the American National Standards Institute (ANSI).

Renewal Guidelines

Renewal of your CCM designation is required every three years, a minimum of 25 Renewal Points and a \$200.00 renewal fee. The 3-year time period established for recertification is based on both the changing dynamics that face professional construction managers and the Board's belief that new practices, research, and information are introduced in the construction industry with enough frequency that professional development activities should be conducted routinely so that CCMs remain current with best practices and emerging knowledge.

- All activities must be specifically construction industry related.
- Renewal points can be earned anytime from the date appearing on your CCM certificate or most recent subsequent renewal period.
- No points may carry over from one 3-year period to the next.
- Renewal applications and supporting documentation are due by the end of your anniversary month.

CMCI reserves the right to request supporting information from any candidate seeking recertification.

Individual Renewal Application

The renewal application for any CCM is found in this renewal handbook. Applications, along with any supporting documentation and current fee of \$200.00, should be submitted through the Recertification Tracking Portal or to the following address by mail, email or by fax:

Construction Manager Certification Institute
7926 Jones Branch Drive, #800 McLean, VA 22102

Fax: 703.356.6388

certification@cmaanet.org

The Renewal Application Fee is payable by credit card or check as found on the application form. The work experience is documented by signature of the applicant (also see Auditing below). Renewal Points are documented by completing the dates, locations on the application form or by using the [Recertification Tracking Portal](#).

Auditing

CMCI guidelines require random auditing of 5% of all renewal applications received for the CCM program. Audits will be performed by certification staff on behalf of the Board of Governors. Renewal applications found through an audit to be incomplete will require the individual to provide any required incomplete documentation within 30 days of notice from the Certification Office. After 30 days, if the individual has not provided complete information the certification will be suspended. If an individual is suspected of fraudulently filing misinformation, the case will be referred to the Ethics Grievance, Appeals, and Discipline Committee for review and resolution.

Appeals

Requests for an appeal of denial of renewal must be made to the Certification Office no later than 30 days after the date of the notification to the applicant of denied renewal. Within 60 days of the receipt of the written appeal, the Ethics Grievance, Appeals, and Discipline Committee must conclude its deliberations and notify the individual filing the appeal. The decision of the Ethics Grievance, Appeals, and Discipline Committee is final. An appeal can be made by using the [CMCI Appeals form](#).

Extensions Due to Extenuating Circumstances

In cases where Certificants, due to extenuating circumstances, cannot obtain the required renewal units by the required renewal date, a request for an extension should be sent in writing to CMCI. The policy for granting an extension allows for CMCI to grant up to a 120 day extension of the renewal requirements when:

- The extension request is in writing and is based upon extenuating circumstances
- The extension request includes a written plan as to how the individual will obtain the missing renewal units within no more than a 120 day extension period

When the renewal requirements are met during the extension period, the date of next renewal will continue to be the original date of renewal. Extenuating circumstances would include such conditions as active military duty, extended illness, or limited availability of renewal units in a particular area.

Agreement to the CCM Code of Ethics

Agreement to abide by and uphold the CCM Code of Ethics is required as a part of the Renewal Application.

The Value of Renewal

The current renewal fee is \$200.00 (USD) every three years per required. This equates to less than \$67.00 a year. The renewal program has many benefits to the individual, including but not limited to:

- Maintaining an ISO/IEC 17024 international standard accredited credential through ANSI
- Providing an online searchable registry of those CCM certified
- Actively pursuing those who would falsify the use of the credential
- Investigating and sanctioning those certified who are found to have violated the CCM Code of Ethics
- Providing ongoing extensive marketing efforts of the CCM credential
- Maintaining a recognized and respected credential that meets the highest professional standards

Earning Renewal Points (RPs)

The Board of Governors identified two areas for renewal: section 1) continued involvement in the CM profession and section 2) professional development. All CCMs must submit a minimum of 25 RPs by the end of their anniversary month every three years. The 25 RPs can be earned in section 1, section 2, or a combination of both sections. To help track RPs, you may choose to use the [Recertification Tracking Portal](#), located on the [CMAA website](#).

The CMCI Board of Governors also recognizes the importance of maintaining other relevant state issued industry licenses that are in accordance with any of the qualifying degrees to become CM certified if applicable. Therefore, the CMCI Board of Governors will provide a certain amount of reciprocity for individuals that maintain both their CCM and their professional license with respect to continuing education and/or learning units (CEU/LU), training, etc. The [Recertification Tracking Portal](#) is available on the [CMAA website](#) will help CCM's who wish to use their CEUs or LUs as part of their CCM renewal.

If CCMs decide to use the [Recertification Tracking Portal](#), then they may print and submit the transcript instead of section 4 of the application. If CCMs decide to use their own method of tracking their RPs, the CCM must submit section 4 of the renewal application.

Recertification Tracking Portal

The [Recertification Tracking Portal](#) was designed to help you keep track of all your CCM RPs along with any other license or credential you may hold. You are able to upload and keep track of all the points and documents you accumulate during your current recertification period by using the portal. We recommend that you load your activities in to your profile as soon as you complete each activity. All the recent activities taken through CMAA will automatically be loaded in to your profile within one month of the activity or creation of your profile.

To access or create your transcript profile, please log into the [Recertification Tracking Portal](#). Here is information on [how to use the Recertification Tracking Portal](#).
